Office Action Summary

Application No.

10/662,878

Applicant(s)

CARGILE ET AL.

Examiner

Joseph A. Kaufman

Art Unit

3754

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-22 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-22 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation of the seal formed solely by the main body is not supported by the original disclosure and thus constitutes new matter.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-8 and 18-21 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Young.

Young shows a main body 32; ends at 31 and 34; opening/outlet 34; seal 31; U-shaped contour having bearing surfaces comprising continuous first and second planar, thickened portions perpendicular to the longitudinal and transverse directions of the main body as seen in Figures 7 and 10; wrapping tool 15-30; contour receiver seen in Figures 4 and 10; slot 26; open end 24, 25 that are not joined as noted in column 3,

Art Unit: 3754

lines 20-25; and the slot engages the bearing surfaces of the contour as seen in Figure 10. Note, the method of forming the seal solely by the main body is a product by process limitation. Further, this limitation is not discussed as noted above and thus is not given criticality. However, it would have been obvious to one of ordinary skill in the art to make the seal formed solely by the main body in order to form a more permanent bond and thus, lower the risk of detachment of the seal from the body.

5. Claims 1, 10-17 and 22 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Bolz.

Bolz shows a main body 1; first and second ends 2, 21; opening/outlet 2; seal 13; U-shaped, discontinuous contour 13 seen in Figures 1 and 5 having opposed thickened portions perpendicular to the longitudinal and transverse directions of the body as seen in Figures 1 and 5; bearing surfaces as hole 16 and seen in the drawing figures; wrapping tool 20 having a contour receiver; and the cross-shape of the contour is seen in Figure 2. Note, the method of forming the seal solely by the main body is a product by process limitation. Further, this limitation is not discussed as noted above and thus is not given criticality. However, it would have been obvious to one of ordinary skill in the art to make the seal formed solely by the main body in order to form a more permanent bond and thus, lower the risk of detachment of the seal from the body.

Response to Arguments

6. Applicant's arguments filed 12/2/2005 have been fully considered but they are not persuasive.

Applicant contends that the drawing figures show that the seal is formed solely by the main body. There is nothing in the drawings that would preclude other possibilities for forming the seal and therefore, the new matter rejection stands.

Applicant contends that the seal being formed by the main body is not a product-by-process limitation. As the structure is defined by how it is made, i.e. formed by the main body, it is a product-by-process limitation. Therefore, as the seal is structurally the same as the seal of Young, Young meets the claimed limitation. Further, the claims have been rejected under 102/103 as repeated above, and the obviousness rejection has not been considered by the applicant in the response.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

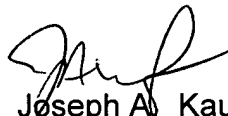

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
